Chief, Personnel Branch

January 5, 1948

Chief, FBIB

Promotion of [redacted], Request dated 19 December 1947

STAT

The promotion of this West Coast Bureau editor to the proposed position (Bu. No. P-103.02) will recognize an actual situation of long standing, since the employee has been performing the duties of that position with competence for more than one year, and delay in her reclassification has been due to deferred activation of the FBIB table of organization. In addition to duties described for this junior position, it has been necessary occasionally for her to assume the complete responsibility for Portland operations required of a senior editor, and she has successfully discharged such responsibilities.
